New Coach Checklist

If you're planning to rock this, here's a ROCK SOLID start to success!

- ___ ***Get active on Shakeology Home Direct*** (not required, just recommended)
Shakeology can be the biggest asset to your business. Ordering it on "home direct", (Shakeology HD is how it's displayed) will save you shipping & handling expenses every month. You can always cancel. I recommend single serve packs for your first month or two (24 servings), then switch to bags (30servings) & every couple mo's when you run out of your initial packs, go to single serve again so you can share. When you need to switch flavors, go to Forms & Documents in your online office.
- ___ Be a product of the product. Drink Shakeology & workout DAILY.
- ___ Create your Team Beachbody coach profile. Supplying ANY before & after pic and your bio. You're not required to have your profile 100% complete but your pictures & bio are important because you can be disqualified from certain incentive programs if you don't have that.
- ___ Get Organized. Save notes, trainings, and emails from your upline to pass on to YOUR team.
- ___ Register on www.platinumpresenters.com . As your screenname, use the same screen name you used for your Beachbody profile.
